

**Notes.**

Brackets can be drilled to a maximum crossover plate of 4.5" x 3.5" as shown. However other arrangements can be achieved. Please ring the office for further details.

Only the bracket as a blank, or ready drilled to your arrangements available. ( 20 holes max. ) No bolts have been included in the price of the bracket.

Installation Pictures. ( Special Project )

Show a BE308 drilled to customer requirements as a heavy duty wall bracket complete with 3" saddles to prevent rotation after installation. The photos show a 3" mast with a 6.5 Kg pan and tilt camera keeping mast as close to the wall as possible to reduce vibration / camera shake.

**Material:- 6mm Aluminium Plate**
