

# BE102 Replaced by new modular kit.

Note the original BE102 is on the left and the new modular BE102Kit is on the right in both photos.

## BE102Kit now replaces the original BE102

The BE102Kit replaces the original BE102 and is a new modular system made up of 4 parts from our XS System under Brackets and Clamps

Kit comprises of the following parts and supplied in kit form.

- 1 x BE732 Base Plate 300mm x 300mm with 4 x M10 studs
- 1 x BE772 Rib Base Plate complete with 3 x BE915 'V' bolts
- 1 x BE216 Top Pole Tilt Pivot Bracket
- 1 x BE753 48.3mm Diameter Tube x 1m with 125mm Sq. base

All above items are included in the BE102Kit but no ground fixing bolts or studs have been included as these need to be chosen to suit the ground structure or medium being used and will be charged as an addition cost.

Fixings can found in Brackets and Clamps under Wall Fixings.

Guy clamps, guy ropes, ground stakes and shackles can be found in the Guying Accessories section of this website.
