

# BE113-KIT-1

## FREE STANDING HUB WITH 3 X 750MM LEGS

This free standing hub and legs when assembled is ideally suited to one day events and contest working which allows a light weight aerial to be put up on a self supported guy system by one person. Will except our fibreglass telescopic masts & we recommend the BE1863/YL or BE1863/GY for the 750mm legs & BE2592/YL or BE2592/GY for the 1000mm legs. BE620-T-KIT is available as a guy set of rings to fit the fibreglass masts. We recommend Mastrant P 3mm for the guy ropes and BE923/50 snap hooks for the guy connections to the guy rings. Tensioning can be made by the ratchet tensioners BE903

Weight of Hub = 0 Kg.

Finish:- Galvanised

Designed and Manufactured by BARENCO
