

BE208/2

GROUND SOCKET 2" FIXED WITH SPIKE

Ground spike with flat plate and socket. This ground spike will accept 2" or 51mm tube inside and will allow tube with a bore larger than 2.3/8" or 61mm to slide over the outside. Plate size of 125mm square and 4mm thick will stop the pole sinking into soft ground and the 16mm dia 200mm long spike will stop the pole sliding or sinking when erect.

Finish : Galvanized

Designed and Manufactured by BARENCO
