

# BE211

## DOUBLE SOCKET WITH HINGE, LOCK AND OVER EXTENSION STOPS

The double socket is designed to hinge a 2" or 50mm mast some distance above the ground. BE 211 is similar to the BE205 with it's hinge and double locking bolts, but with a over extension stop so the mast will not over balance before the second bolt is secured.

The new finish for this product is Sherardized.
