

BE212

DOUBLE HINGE SOCKET EXTENDED 2" TO EXTENDED 48.3MM

The extended double socket is designed to hinge a 2" or 50mm mast some distance above the ground. BE 212 is similar to the BE205 with it's hinge and double locking bolts, but with a over extension stop so the mast will not over balance before the second bolt is secured. The 48.3mm section will fit into a 2" standard drive on base BE104 or BE104L.

Please note the BE104 or BE104L is a separate purchase and not included in the sale.

The new finish for this product is Sherardized.
