

BE611/1

CROSSOVER PLATE 2" X 2"

The BE611/1 connects two 2" masts at right angles.

Made in our own workshop from 4mm plate steel, this product gives a very strong connection between masts, and can be used to build big antenna arrays or stacking and baying aerials

Replacement Bolts. Order Code : BE915

This product is also available in Stainless Steel to special order.

Finish : Sherardized
