

# BE611/1 HD

## CROSSOVER PLATE 2" X 2" HEAVY

The BE611/1 HD connects two 2" masts at right angles.

Made in our own workshop from 6mm plate steel, this product gives an extremely strong connection between masts, and can be used to build big antenna arrays or stacking and baying aerials

Replacement Bolts. Order Code : BE915

Finish : Hot Dipped Galvanized

NOTE. This product can be made available in Stainless Steel to special order.
