

BE611/2.5

CROSSOVER PLATE 2.5" X 2.5"

The BE611/2.5 connects a 2.5" mast to a 2.5" mast at right angles.

Made in our own workshop from 4mm plate steel, this product gives a very strong connection between masts, and can be used to build big antenna arrays or stacking and baying aerials.

Replacement Bolts 2.5". Order Code : BE957

This product is also available in Stainless Steel to special order.

Finish : Galvanized
