

# **BE611/2**

## **CROSSOVER PLATE 2" X 2.5"**

The BE611/2 connects a 2" mast to a 2.5" mast at right angles.

Made in our own workshop from 4mm plate steel, this product gives a very strong connection between masts, and can be used to build big antenna arrays or stacking and baying aerials.

Replacement Bolts 2". Order Code : BE955

Replacement Bolts 2.5". Order Code : BE957

This product is also available in Stainless Steel to special order.

Finish : Galvanized
