

BE611/3

CROSSOVER PLATE 2" X 3"

The BE611/ 3 connects a 2" mast to a 3" masts at right angles and the finish is galvanised.

Made in our own workshop from 4mm plate steel, this product gives a very strong connection between masts, and can be used to build big antenna arrays or stacking and baying aerials.

Replacement Bolts 3". Order Code : BE958

Replacement Bolts 2.". Order Code : BE955

This product is also available in Stainless Steel to special order.

Finish : Galvanized
