Sold Separately
- BE640/6/U12U20 - 1.25" x 2" Aluminium crossover plate - M6 bolts - 4" x 4" x 1/4" plate.
Sold Separately
- BE640/6/U15U20 - 1.5" x 2" Aluminium crossover plate - M6 bolts - 4" x 4" x 1/4" plate.
Sold Separately
- BE640/6/U17U20 - 1.75" x 2" Aluminium crossover plate - M6 bolts - 4" x 4" x 1/4" plate.
Sold Separately
- BE640/6/U20U20 - 2" x 2" Aluminium crossover plate - M6 bolts - 4" x 4" x 1/4" plate.
Sold Separately

PLEASE NOTE. This kit does not come with the crossover plate but is a modification kit to change one half of the 2" round section to a 2" square section, such as an aerial boom.

Made in our own workshop from 1/4" aluminium flat strip, this product gives a very strong connection between masts, and can be used to build big antenna arrays or stacking and baying aerials.

If you require a special crossover plate size please contact the sales office 01949 860400 or use the contact form available.

All bolts are complete with Flat Washers and Full Nuts, BZP Finish. Designed and Manufactured by BARENCO.
