

# BE917/10

## SLEEVE ANCHOR 10MM X 75MM

Size: 10mm Dia. x 75mm Sleeve anchor's available in two diameters 10mm and 12mm.

Nut is M8 with a built in washer and serrations under.

10mm Masonry Drill will be required.

And 75mm being the minimum depths.

Ideal hole in bracket to be fixed with BE917/10 will be between 8mm - 12mm Maximum

NOTE: We recommend our sleeve anchors over Rawlbolts on the one point that they have a reduced risk of cracking a brick with a Sleeve Anchor.
