

# BE917/12

## SLEEVE ANCHOR 12MM X 75MM

Size: 12mm Dia. x 75mm Sleeve anchor's available in two diameters 10mm and 12mm.

Nut is M10 with a built in washer and serrations under.

12mm Masonry Drill will be required.

And 75mm being the minimum depths.

Ideal hole in bracket to be fixed with BE917/12 will be between 10mm - 15mm Maximum

NOTE: We recommend our sleeve anchors over Rawlbolts on the one point that they have a reduced risk of cracking a brick with a Sleeve Anchor.
